Polar Media, London	
Junior 3D Generalist	December 2015 -March 2015
Double Negative, London	
3D Runner	July 2015- November 2015

Skills

Strong knowledge of all features in Maya and Photoshop, though my love is sculpting and modelling I am great with software's such as Zbrush, Mudbox and 3D Coat. I also have worked extensively with After Effects for Video Editing and on a Dneg training scheme for Matchmove using 3Dequalizer. Stripping large assets down using Nvisworks at Polar Media and importing to Maya for texturing and rendering. Other than my computer skills I work efficiently in and out of teams and am well organised. From my experience I have a strong commercial awareness and understanding of the industry pipeline and work well under pressure.

Education
